X	General	Abhinav English Medium School Pune	Maharashtra State Board	2012	70.00 %	I

## Academic Projects

Title : Budget Car  
Platform : MS.NET,MVC,SQL  
Duration : 1 Month  
Description : The main objective of this project is building a platform between buyers and sellers who wants to sell and by the used cars. Which provide better utilization of asset. Customer will get all information about car. There is direct communication between sellers and buyers so no need to sell or buy car through agent. Users can reach maximum number of people at same time and get more options to compare. User can also get the Expert advice on car without going anywhere else.

**Title** : **CHAT BOT**  
**Platform** : MS.NET **Duration** : 2 Months  
**Description** : Chat Bot is a application which can be used by the colleges. This application gives the answers to the questions asked by the students while taking the admissions in that college. This application also has artificial intelligence (AI) concept in it, which makes the application more beneficial to use. This project was done by two students, me and a colleague. My role in this project was to help in the backend (database) by collecting and connecting the database with the code.

---

**Title** : **ONLINE MOBILE SHOPPING**  
**Platform** : J2EE **Duration** : 2 Months  
**Description** : Online Mobile Shopping is being launched because a need for a destination that is beneficial for both mobile sellers and users. Users can compare different mobiles and get their respective mobile in affordable price. Also it immediately provides the new mobiles available in market. This project was done by two students, me and a colleague. My role in this project was coding the pages and making the pages run with the desired output.
